Stunning Study Guide #1
Loads of Triad Fun

You now all know what triads are and how we approach them. Here are several triads based largely on the reading up until the Russian Civil War and NEP. These include both triads that we have already done and ones that we may take up in the future. A good mode of studying would be to try to tackle these, being sure to include specific evidence to support the thesis statement that you provide. It is also a worthwhile exercise to develop your own triads – ones that will encompass a given set of readings and elucidate the key points therein.

Foreign Intervention Young Turks (CUP) Armenian genocide	World War I The German people Traditional authorities
Bolsheviks Marxism Working Class	Fourteen Points Paris peace negotiations Treaty of Versailles
Russian Civil War War Communism NEP	Bolsheviks Working class “bourgeois experts”
